

Section II. (Amendment to the Drawing Features)

1. Figure 5 has been replaced herein by a new replacement Figure 5, in which the reference number 44 has been deleted. A marked-up copy showing changes made to Figure 5 is attached herein in **Appendix B**.
2. Figure 8 has been replaced herein by a new replacement Figure 8, in which the positions of the grooves 63 and 64 have been changed from on the diaphragms to on the ridges between the round notches, consistent with the position of the grooves depicted in Figure 9. A marked-up copy showing changes made to Figure 8 is attached herein in **Appendix B**.
3. A new set of formal drawings for Figures 1-9 is hereby provided in **Appendix C** to replace the originally filed informal drawings. Such formal drawings correct the informalities that were objected to by the Official Draftsperson in the Notice of Draftsperson's Patent Drawing Review and are therefore in compliance with the requirements of 37 C.F.R. 1.84 or 1.152.
